J. Herbert Alexander

Dahliatown

Middleboro, Massachusetts

Dear Dahlia Friends:

AS I feel that you are bored to death with a cut and dried catalog introduction, I should rather, merely chat with you for a little.

True to my previous principles, I am again offering you selected "Dahlia Aristocrats" and "Gladioli Gems," which I can safely guarantee to give perfect satisfaction.

You may note a reduction in the number of different varieties of dahlias listed this season. This is due to the fact that I am aiming to eliminate some varieties and am working up and trying out new things for you for 1928.

My "Gladioli Gems" are worthy of mention here, and, in fact, merit a prominent place in every garden. Careful selection on my part, during the last four years, has resulted in my offering you a complete list of this justly famous and beautiful member of the "cut-flower family".

Thanks to your patronage and good-will, business is increasing in amazing proportions, and I shall strive to continue my policy of conscientious service, and hope to receive your order again for the coming season.

As always you can depend upon plump, fully-matured tubers that I can guarantee to give good satisfaction.

Cordially yours,

J. HERBERT ALEXANDER.

INFORMATION

Time of Shipment. I shall start making shipments on the first of March and your order will be sent as soon after that date as possible. If you desire an earlier shipment or a shipment on any given date please mention the fact in your order and I shall make every effort to meet your wishes.

Substitutions. Every bulb or plant is sent out labeled absolutely true to name but sometimes a customer will call for a variety that is out of stock when a variety of a higher grade and higher price would be just as acceptable. In a case of this kind I take the liberty of sending the higher priced variety properly labeled with no additional charge, rather than delay shipment of the order. If you desire the precise varieties you call for and do not want anything else, I would ask that you please make mention of it when ordering.

Transportation Free. There will be no charge whatever for packing or transportation, the order being shipped by either parcel post or express, whichever is the cheapest and best.

Guarantee. Every bulb, root and plant sent out is absolutely guaranteed to be as represented and to reach its destination in good growing condition. This guarantee covers a replacement of the stock or a refunding of the purchase price but in no case shall I be held responsible for an amount in excess of the price paid. Any complaint of whatever nature will have my prompt and cheerful attention and I shall only be too glad of the opportunity of making proper adjustment.

NEPONSET WATERPROOF PAPER FLOWER POTS.

NEPONSET Waterproof Paper Flower Pots are made from a tough, lasting and thoroughly waterproof paper.

The pots may be used over and over again for transplanting and similar uses.

In fact, the pots can be used in every way that earthenware pots can be used.

Ideal for transplanting and shipping potted plants and for rooting or shipping strawberry, tomato and cabbage plants.

WIRED DAHLIA LABELS, 3½ in.

These labels, 3½ in. long and 5/8 of an in wide are just the right size for the writing of the name of the dahlia, and are invaluable for use when storing your dahlias for the winter, and for use on the stake when the stock is growing. They are suitable for all kinds of plants and bulbs. The painted labels and the plain labels are identical with each other except the use of the smooth, white paint upon one side provides an ideal surface for writing.

The iron wire is stiffer and stronger than the copper and can be more easily pushed through the tuber. I recommend the use of the painted iron wire labels as being the best for all purposes.

INDESTRUCTIBLE ALL-STEEL TROWEL.

This is the strongest and most durable trowel I have ever seen; practically indestructible. Made all in one piece of hardened steel it is eleven and one-half inches long with a blue painted round handle that can be gripped strongly and firmly in the hand. A tool that is just right in every way for the purposes for which it is intended. Sent post-paid for 50c.

DAHLIA CUTTING KNIVES.

In the cutting or dividing of Dahlia roots a knife of the proper size and shape will be found a very handy article. I am offering two such knives of the same shape but of different sizes. The smaller is 6 inches long with a 2 inch blade and the larger is 6¾ in. long with a 2¼ in. blade. The blades end in a curved hook, the point of which can penetrate the closest Dahlia clump.

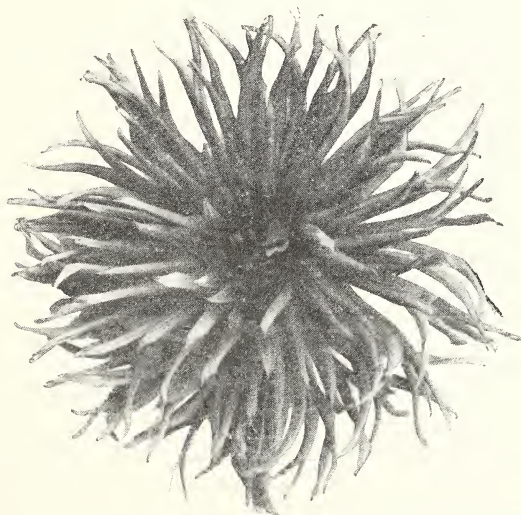

These blades are made of the finest tool steel securely riveted in the handle, ground sharp and hand honed. Oval taper rubberoid handles with nickled-plated closed ferrules makes the knife not only neat in appearance but able to withstand the hardest usage. Just the thing for the lady in the kitchen. Sent post-paid, small size 60c. Large size 75c.

A Cordial Invitation.

to visit my gardens, whenever you have the opportunity, is extended to you. You are invited to come, and bring your friends, —the more the merrier. I assure you I will strive to make your visit as pleasant as possible, and that I will show you over my entire farm.

My gardens are located on the State Road from Boston to Cape Cod, between the towns of Bridgewater and Middleboro, five miles south of Bridgewater.

You will be able to enjoy over twenty-five acres of dahlias, which are in bloom from late July until frost, and are usually at their best during late August. Thousands of Gladioli, bordering the State Road near my Log Cabin roadside-stand, will interest you, I am sure. My planting of them for 1927 will be considerably increased. For an early Spring attraction, I will have two acres of Tulips, which for this part of the country, will be a very unusual sight. The Darwin Tulips, which are the "Aristocrats of Tulipdom," will be at their best just before Decoration Day.

A half-mile auto drive thru my garden, with flowers on both sides, which was completed this past year will make it convenient for you to drive among my "Aristocrats of the Dahlia-World."

A large advertising sign at the corner, which says, "You are now in Dahliatown" will help you to locate my gardens. You are welcome at all times.
